Section VI - Health Hazard Data

Route(s) of Entry:	Inhalation?	Х	Skin?	Х		Eyes?	Х	Ingestion? X	
Health Hazards (Acute	and Chronic):	Effects of	Overexpose	ire:	SKIN:	Skin irrit	ant.	Will cause defatting of skin.	
Effects are reversible.	EYES: Eye irrit	ant. Will	cause rednes	ss ar	nd burni	ing sensat	ion.	INHALATION: Effects of	1
overexposure include in	ritation of respira	atory tract	, headache,	dizzi	iness, n	ausea, an	d los	ss of coordination. Extreme	;
overexposure may result	in unconsciousnes	s and possi	bly death. II	NGE	STION:	: Aspirati	on ha	zard if swallowed.	

Medical Conditions Generally Aggravated by Exposure: Prolonged and repeated overexposure to hexane may cause damage to nerve tissue of the arms and legs (peripheral neuropathy), resulting in muscular weakness and loss of sensation. Repeated and prolonged overexposure to solvents may cause permanent brain and nervous system damage.

Emergency and First Aid Procedures: SKIN: Immediately flush exposed area with water for at least 15 minutes. If irritation persists, get medical attention. Remove contaminated clothing and launder before reuse. **EYES:** Immediately flush with large quantities of water for at least 15 minutes, lifting upper and lower eyelids occasionally. Remove contact lenses, if present. Seek medical attention. **INHALATION:** Remove person to fresh air. If irritation persists, give oxygen, get medical attention. **INGESTION: DO NOT** induce vomiting. Seek medical attention immediately. NOTE: Never give anything by mouth to an unconscious or convulsing victim. Keep person warm and quiet.

Section VII - Precautions for Safe Handling and Use

Steps to Be Taken in Case Material is Released or Spilled: Use absorbent sweeping compound to soak up material. Put into container. Dispose as hazardous waste.

Waste Disposal Method: Dispose as hazardous waste in accordance with EPA RCRA.

Precautions to Be Taken in Handling and Storing: When spraying more than one half can continuously or more than one can consecutively, use NIOSH approved respirator. Store at temperatures below 120°F. Keep away from heat, sparks, or open flame. For industrial and institutional use only. Keep container closed during storage. For use by trained personnel only.

Other Precautions: KEEP OUT OF REACH OF CHILDREN.

Section VIII - Control Measures

Respiratory Protection (Specify Type): Self-contained breathing	Ventilation: Provide local exhaust to keep TLV of				
apparatus if above TLV limit.	Section 2 ingredients below acceptable limit.				
Protective Gloves: None required if spraying.	Eye Protection: We recommend the use of safety				
Other Protective Clothing or Equipment: Long sleeves and long glasses or chemical splash goggles.					
pants.					
Work/Hygienic Practices: Wash hands with soap and water after using product. Do not smoke while using.
