Anne G. Garrett, Ed., D.
Superintendent

Please read this document carefully before signing.

Computer networks and Internet access are available to students in Haywood County Schools. Our goal is to promote educational excellence by facilitating resource sharing, innovation, and communication. The Internet is a global network connecting millions of computers all over the world. On a global network it is impossible to control all materials, and users may encounter objectionable material. HCS has taken precautions to restrict access to inappropriate materials and believes that access to valuable information and interaction available through the network outweighs this possibility. Internet access is coordinated through an association of government agencies and regional and state networks. Smooth operation of the network relies upon the proper conduct of the users adhering to guidelines and responsibilities.

While we recognize that technology is an important instrument in effective instruction, we also recognize that parents and guardians should have the opportunity to decide if their children have access to these resources. After considering the impact that technology has on instruction, if you desire that your child not receive these services, please fill out and sign below.

___ I do not give my child permission to use web 2.0 tools while at school

___ I do not give my child permission to use the internet or web 2.0 tools while at school

Student's Name (please print):_____

Parent's Name (please print):_____

Signature:_____
