

School attendance and class participation are integral parts of academic achievement and the teaching-learning process. Through regular attendance, students develop patterns of behavior essential to professional and personal success in life. Regular attendance by every student is mandatory. The State of North Carolina requires that every child in the State between the ages of 7 (or younger if enrolled) and 16 attend school.

Parents and legal guardians are responsible for ensuring that students attend and remain at school daily. A student must be present for at least one-half of the school day or class period in order to be recorded as present for that day or class. School administrators shall communicate attendance expectations to parents and guardians and work with students and their families to overcome barriers to attendance.

The superintendent shall develop administrative regulations to address the requirements of this policy, including, but not limited to, consequences, make-up work and sessions, and a review and appeals process for excessive absences and tardies. Additional attendance policies and requirements may be implemented at each school; however, such policies and requirements must be consistent with this policy and any administrative regulations developed by the superintendent and are subject to review and approval by the superintendent and the board.

A. ATTENDANCE RECORDS

School officials shall keep accurate records of attendance, including accurate attendance records in each class. Students will be considered in attendance if present at least half of the instructional day on-site in the school or at a place other than the school attending an authorized school-related activity. To be in attendance during remote instruction days, students must: (1) complete their daily assignments, either online or offline; and/or (2) have a daily check-in through two-way communication with (a) the homeroom teacher for grades K-5 or (b) for all other grade levels, each course teacher as scheduled.

B. LATE ARRIVALS AND EARLY DEPARTURES

Students are expected to be at school on time and to remain at school until dismissed. During the school day, students are expected to be present at the scheduled starting time for each class and to remain until the class ends.

When a student must be late to school or leave school early, a written excuse signed by a parent, guardian, or health care practitioner should be presented upon the student's arrival at school. Tardies or early departures may be excused for any of the reasons listed below in Section C.

Any disciplinary consequences for unexcused tardiness or unexcused early departures from school or class will be consistent with Section D of policy 4300, Student Behavior Policies.

The superintendent or designee shall list in the Code of Student Conduct the specific range of consequences that may be imposed on a student for such offenses. Consequences may not exceed a short-term suspension of two days.

C. EXCUSED ABSENCES

When a student must miss school, a written excuse signed by a parent, guardian, or health care practitioner must be presented to the student's teacher on the day the student returns after an absence. Absences due to extended illnesses may also require a statement from a health care practitioner. An absence may be excused for any of the following reasons:

1. personal illness or injury that makes the student physically unable to attend school;
2. isolation ordered by the local health officer or the State Board of Health or isolation or quarantine that is a required state or local control measure;
3. death in the immediate family;
4. medical or dental appointment;
5. attendance at the proceedings of a court or administrative tribunal if the student is party to the action or under subpoena as a witness;
6. a minimum of two days each academic year for observance of an event required or suggested by the religion of the student or the student's parent or legal guardian;
7. participation in a valid educational opportunity, such as travel or service as a legislative or Governor's page, with prior approval from the principal;
8. pregnancy and related conditions or parenting, when medically necessary; ~~or~~
9. a minimum of two days each academic year for visitation with the student's parent or legal guardian if the student is not identified as at risk of academic failure because of unexcused absences and the student's parent or legal guardian (a) is an active duty member of the uniformed services as defined by policy 4050, Children of Military Families, and (b) has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat support posting; or
- 9.10. any other reason as approved by the board in a board resolution.

D. SCHOOL-RELATED ACTIVITIES

While recognizing the importance of classroom learning, the board also acknowledges that out-of-classroom, school-related activities can provide students with valuable experiences

not available in the classroom setting. The following school-related activities will not be counted as absences from either class or school:

1. field trips sponsored by the school;
2. job shadows and other work-based learning opportunities, as described in G.S. 115C-47(34a);
3. school-initiated and -scheduled activities;
4. athletic events that require early dismissal from school; and
5. Career and Technical Education student organization activities approved in advance by the principal;

In addition, students participating in disciplinary techniques categorized as in-school suspension will not be counted as absent.

E. MAKEUP WORK

In the case of excused absences, short-term out-of-school suspensions, and absences under G.S. 130A-440 (for failure to submit a school health assessment form within 30 days of entering school), the student will be permitted to make up his or her missed work. (See also policies 4110, Immunization and Health Requirements for School Admission, and 4351, Short-Term Suspension.) Assignments missed due to participation in school-related activities also are eligible for makeup by the student. The teacher shall determine when work is to be made up. The student is responsible for finding out what assignments are due and completing them within the specified time period.

F. EXCESSIVE ABSENCES

Class attendance and participation are critical elements of the educational process and may be taken into account in assessing academic achievement. Students are expected to be at school on time and to be present at the scheduled starting time for each class. Students who are excessively tardy to school or class may be suspended for up to two days for such offenses.

The principal shall notify parents and take all other steps required by G.S. 115C-378 for excessive absences. Students may be suspended for up to two days for truancy.

If a student is absent from school for five or more days in a semester, the principal or a committee established by the principal shall consider whether the student's grades should be reduced because of the absences. The principal or committee shall review other measures of academic achievement, the circumstances of the absences, the number of absences, and the extent to which the student completed missed work. A committee may recommend to the principal and the principal may make any of the following

determinations:

1. the student will not be promoted to the next level of study and/or will not receive credit for the semester;
2. the student will not receive a passing grade for the semester;
3. the student's grade will be reduced;
4. the student will receive the grade otherwise earned; or
5. the student will be given additional time to complete the missed work before a determination of the appropriate grade is made.

Students with excused absences due to documented chronic health problems are exempt from this policy. In addition, for students experiencing homelessness (see board policy 4125, Homeless Students), school officials must consider issues related to the student's homelessness, such as a change of caregivers or nighttime residence, before taking disciplinary action or imposing other barriers to school attendance based on excessive absences or tardies.

Excessive absences may impact eligibility for participation in interscholastic athletics. See policy 3620, Extracurricular Activities and Student Organizations.

G. UNEXCUSED ABSENCES

The principal shall notify parents and take all other steps required by G.S. 115C-378 for excessive, unexcused absences.

Any school disciplinary consequences for unexcused absences will be consistent with Section D of policy 4300, Student Behavior Policies. The superintendent or designee shall list in the Code of Student Conduct the specific range of consequences that may be imposed on a student for such offenses. Consequences may not exceed a short-term suspension of two days.

H. CHRONIC ABSENTEEISM

Because class attendance and participation are critical elements of the educational process, any absences, whether excused or unexcused, can have a negative impact on a student's academic achievement. Regular attendance must be prioritized within each school and encouraged throughout the community. School administrators shall monitor and analyze attendance data to develop and implement strategies for reducing chronic absenteeism. Such strategies should involve engaging students and parents, recognizing good and improved attendance, providing early outreach to families of students missing school, and identifying and addressing barriers to attendance.

I. SPECIAL CIRCUMSTANCES**1. Students with Chronic Health Problems**

No penalties will be imposed for absences due to documented chronic health problems.

2. Students Experiencing Homelessness

For students experiencing homelessness (see board policy 4125, Homeless Students), school officials must consider issues related to the student's homelessness, such as a change of caregivers or nighttime residence, before taking disciplinary action or imposing other barriers to school attendance based on excessive absences or tardies.

3. Attendance Requirements for Extracurricular Activities

Absences may impact eligibility for participation in extracurricular activities. Principals shall inform students and parents of the applicable attendance standards for the various types of extracurricular activities, including interscholastic athletics. See also policy 3620, Extracurricular Activities and Student Organizations.
